A MESSAGE FROM THE AUTHOR OF THE BOOK

Two years ago, I was asked by Kaye Tuddenham, to help out with information for the writing of the History of the Boroondara Rugby Club. I thought it would be a simple task of giving what I knew and that would be it. This wasn't the case!

After a few days working on what I thought would be sufficient information, I realised that this was going to a bigger task than what everyone had thought. I simply took over from thereon and after two years of hard work and dedication, I have come up with the finished product.

This could not have been achieved without many of you helping me with the information. Those who have been helpful will be acknowledged in the book. I must thank Kaye Tuddenham and her work colleagues for the tremendous job they have done in setting this book up and presenting it in a very professional manner.

From what I thought would be just a small book, it has developed into a 400 page A4 size publication, worthy of a special place on your book shelf and well worth the money you will spend on purchasing it.

It contains all the history that I can find about the club since its inception in 1923 to the present time. It is full of pictures, both black and white and coloured, stories of many past and present members, facts and figures of the Club's playing achievements over the years, the Foreword written by the great John Eales, plus much more. It will be a book that you and your friends and relations, now and in the future will be able to pick up and enjoy reading about one of the best Rugby Clubs in Australia. Hopefully it will help make you feel very proud of being a member.

I trust that you and everyone will purchase a copy and enjoy reading it as much as I have had the pleasure of producing it. It hopefully will be a great investment for you and the Club.

Yours in Rugby,

John Woodhouse
